ABSTRACT

This is a one-paper-multiple-typesetting-styles template. With this template, users can easily switch to different LaTeX typesetting styles while maintaining up-to-date content. For example, in case a paper is unfortunately rejected without being reviewed, users can switch to a better journal or conference immediately or even directly. We hope all papers can be accepted in a suitable and satisfying place.

1. Introduction

[illegible]

The remaining sections are structured as follows. Section 2 is the related work. Section 3 is the methodology. Section 4 presents the experiments. Section 5 presents the experimental results and discussion. Section 6 is the conclusion, which concludes the whole work. Some possible future research directions are proposed.

2. Related Work
